

Application example

STYRENE-FREE EP-NOVOLAC-VINYLESTER-RESIN-SYSTEM

WITHOUT STYRENE EMISSION / TOTAL SOLID /
SOLVENT-FREE

OXYDUR iVE

Available modular systems:

- Bedding and jointing mortar
- Painting (not conductive)
- Laminate (spray roving / roving / mat)
- Broadcast coating
- Self-leveling coating
- Every system also available in conductive version

Main features:

- Styrene / Solvent free
- Crack bridging up to 0.4 mm
- Much better scratch resistance and chemical resistance to solvents as standard VE-systems
- Curing possible even at low temperatures ($\geq 5^\circ\text{C}$)
- Excellent shelf life of resin (even at high temperatures)

Fields of application:

- Floor coating with DIBt approval (OXYDUR iVE LC)
- Smell-sensitive environment
- Pharma industry, food industry, clean rooms, chemical industry
